EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Carpenter (39,129) on May 26, 2005. The examiner's amendment resolves a 101 issue with claim 22 and minor informalities with the specification.

The application has been amended as follows:

In the claims:

Please cancel claim 22.

In the specification:

On page 16 of the specification, in line 17, please delete "U.S. Patent __/__/__".

On page 22 of the specification, in line 7, please replace "ITOP" with --IOP--.

2. The following is an examiner's statement of reasons for allowance:

3. The primary reasons for allowance are the inclusion of specific limitations in each of the independent claims directed to a framework for a network management device and a method related to network management information. Particularly, independent

claim 1 contains the limitations "the object manager is further configured to scan a provider list and recognize objects needed to fulfill data requests regarding remote network devices from a remote front end device; and the object manager is yet further configured to utilize multiple objects recognized from different provider lists and the interface to retrieve data to fulfill the data requests." and independent claim 2 contains the similar limitation "scanning a provider list; recognizing a set of objects in the provider list needed to retrieve and reference the requested data; determining if the recognized set of objects have been instantiated at the backend receiver;". The closest prior art, U.S. Pat. No. 6,754,664 by Bush, does not teach the use of scanning provider lists in order to recognize object needed to fulfill data request (see also applicants' remarks filed 12/06/04). This subject matter is further, non-obvious in view of the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Lazaro whose telephone number is 571-272-3986. The examiner can normally be reached on 8:30-5:00 M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ario Etienne can be reached on 571-272-4001. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
